

Farrrier's Cage Globe

“Farrrier’s Cage Collection”, globe light cage.
Five wrought iron fingers form the cage of
this cage light designed by Anthony Dickens.
The open cage hints at our industrial past
but is interpreted stylishly for the modern
home. The globe cage light is designed to
take a vintage style decorative Edison mega
globe bulb, the combination of globe bulb
and round cage complement each other
perfectly.

The globe cage light will be a feature and
talking point wherever it is found.

Finish: Natural beeswax

Height: 25 cm

Width: 25cm

Weight: 907 grams
