

# Farrrier's Cage Long

“Farrrier’s Cage Collection”, long light cage designed by Anthony Dickens. The design draws on our industrial heritage taking style cues from the time of the original Edison light bulbs and the introduction of the electric light bulb into industrial premises. The vintage theme is tempered by a contemporary influence and displays what might be called a ‘rugged charm’ perfect for today’s homes. The long cage light is designed to take an antique style light bulb to complete the effect.

A stunning focal point in any room and hung in clusters creates a unique iron chandelier.

Finish: Natural beeswax

Height: 35 cm

Width: 14 cm

Weight: 895 grams
